**PAUL SHIPMAN, GOLD WATCH WINNER IN THE
HONEYWELL GOLDRUSH**

***“I never compromise on materials and products in my installations,
so I always install Honeywell”***

Prize donated to Save the Children charity auction

BRACKNELL, UK, 3 January 2003 – Suffolk-based heating installer Paul Shipman has won a prestige TAG Heuer Classic Quartz gold watch as an “instant winner” in the Honeywell Goldrush. Game cards in special packs of Honeywell radiator thermostats give installers the chance of “instant win” prizes as well as opportunities to enter a raffle for a Mercedes SLK-Class sports car.

The Goldrush promotion had no bearing on Paul’s choice of the Honeywell radiator thermostats over other makes – he doesn’t use any other makes and buys them regularly, in boxes of twenty from Graham Builders Merchants in Ipswich. “I never compromise on materials and products in my installations,” he said. “I always install Honeywell thermostats, programmers and valves because they’re ‘grief-free’.

“All my business comes from customer referrals and my reputation for top quality. Honeywell’s high product reliability is important to maintain this reputation and also to cut out call-backs as I provide a minimum two-year guarantee on new systems.”

Paul has donated the watch to the Save the Children charity, for auction at a fund-raising event.
