**HONEYWELL INVITES INSTALLERS/SPECIFIERS TO 20
CELEBRATION EVENTS THROUGHOUT THE UK AND
NORTHERN IRELAND**

**Events mark 50 years (and well over 20 million units) of thermostat
production at Honeywell's Newhouse factory**

Honeywell has named twenty venues for special customer events to celebrate 50 years of UK thermostat manufacture at its Newhouse centre at Motherwell. In that time the plant has made well over 20 million thermostats: if laid end-to-end they would stretch from London to Lisbon, Gibraltar, Naples or Stockholm.

The events are themed "Driving Expectations" and every installer and specifier can register now for free VIP tickets, by phone on 01344 656564, email 50.years@honeywell.com or online at www.honeywelluk.com Tickets for each event are allocated on a "first come first served basis".

Each gala event gives guests the opportunity to meet colleagues and Honeywell people, to enjoy a celebratory lunch or dinner with prize draws and also to experience a special mixed media presentation which both celebrates Honeywell's manufacturing heritage and looks forward to future heating control technologies.

The venue for each event is a heritage or technology centre, so guests have the opportunity to view these attractions without charge on the special day.

2-Honeywell

“Through these events we aim to thank many of the people who have contributed to Honeywell’s success over many years and to celebrate our manufacturing milestones,” said Richard Edwards, Honeywell Director of Environmental Control Sales. “We’ll also use the occasions to give guests a peek into the future of heating control, as we have many exciting technologies under development.”

The first “Driving Expectations” event is at the Glasgow Science Centre on 17th February. It then tours England, Wales and Ireland, so guests should not have to travel too far, wherever they live in the UK.
